Pierre Henri Depretz

Cloud | Database | DevOps
Born 1987 in France

About me

Ever since I was a kid, computer science has been my passion. I will always remember that magic moment when I created a static HTML page for the first time. I like the feeling to be able to ask the computer whatever I want to do just by typing something with my keyboard. This passion carried me through today, almost 10 years of experience by learning something every day and there's certainly yet more to learn, solve and build.

Also proficient in Adobe Photoshop and Illustrator, grew up bilingual (English and Klingon).

Skills

HTML5   CSS3   JavaScript

Node.js   Angular 2   TypeScript

ES.Next   Docker
